Information and Professional Boundaries Statement

Learn Without Limits CIC provides information, guidance, and signposting to support families navigating education, health, and additional learning needs systems in Wales.

We are not a regulated legal, medical, or clinical service. We do not provide legal advice, medical advice, or clinical assessment.

Our role is to help families understand public guidance, statutory frameworks, and system processes so they can engage confidently with schools, local authorities, health services, and professionals.

Where a situation requires legal, medical, or clinical input, families should seek advice from appropriately qualified professionals such as solicitors, clinicians, or regulated advocacy services.

This clarity is intentional. We believe transparency about roles and boundaries builds trust, protects families, and supports ethical practice. We do not overstate our authority or blur professional responsibilities.

All information is provided in good faith, based on publicly available guidance and lived experience, but should not be relied upon as a substitute for professional advice tailored to an individual case.
